Bro. Tuckett,

Here is my direct evidence for the above subject. I hope I'm doing this right. Please let me know if not.

Thanks!
Richard

Bro. Tuckett,

Here's an update to my portfolio. Getting just a basic Hibernate program to work was super hard. I spent several hours just debugging and figuring out which versions were current with the newest API and sorting through a couple options for the deprecated methods. But I did finally get it working and I've posted a sharing video on it.

Please look at the following:

<https://github.com/richardhenke/cit360-sandbox/tree/master/Hibernate>

Files/Links:

- * CIT360Hibernate_demo
- * Notes 3-30-15.pdf
- * <https://youtu.be/JuuERLQFjHo>

Thanks,
Richard

Bro, Tuckett,

Here is another update to my understanding portfolio under MVC pattern.

Question:

This is changing topics a little here but how do I get an agree on the Application Controller Pattern? I've tried to do some research on it but there's not a lot I can find other than the website you posted in Google+ earlier in the semester and the small Wikipedia page they have listed. I'm not sure that I've found enough information for me to really feel like I can become fluent in it?

Files/Folders to Review:

- * Notes 3-31-15.pdf (Notes)
- * who_borrowed_what (Folder)

Bro. Tuckett,

Here is the comment on the 9.02 More Understanding Portfolio assignment.

"I'm sorry. I didn't see that you had a new portfolio submitted. If I missed it, please let me know."

I sent you the link to my portfolio in this email. I highlighted in this copy which document to look at showing my recent activity. I added something in about a half a dozen of the topics.

Bro. Tuckett,

I apologize for submitting so much at one time. Thank you for the extension of time though, that really helped me out a lot. I will be submitting code on regular basis from here on out.

Richard

Please read the [Notes for 3-13-15 Submissions.pdf](#) to see which files I've added that need your approval.

Portfolio Link: <https://github.com/richardhenke/cit360-sandbox>"

Please let me know if there is still any confusion.

Thanks,
Richard Henke

Bro. Tuckett,

I have 2 questions for you. 1) For the Direct Evidence of Professionalism as well as the Individual, Self-Reflective Report Group do we turn something in for those? Or do you just evaluate us on what you've seen? 2) If we are supposed to turn something in on those subjects for you to evaluate us on do we need to turn them in this week like everything else?

Thank you in advance,
Richard

Brother Tuckett,

Here is another understanding portfolio. I understand I will need to add more to it later. How do you want us to demonstrate our knowledge of the UML topics? Also, our team noticed that some of the 14 Topics in I-Learn and the 14 Topics on the reviews you send back to us don't mesh up exactly. For instance, where does Java Beans fit in?

<https://github.com/richardhenke/cit360-sandbox/tree/master/Portfolio%203>

Thanks,
Richard

Bro. Tuckett,

Sorry about that, I don't know why that rtf file wasn't opening. I've now saved it as a pdf and made sure that I can open it again on my mac.

Thanks,
Richard
